&
Department of English & Foreign
Languages**

**Periyar Maniammai Institute of
Science & Technology (PMIST)
(Deemed to be University)
Periyar Nagar, Vallam, Thanjavur – 613403**

About the University

Periyar Maniammai Institute of Science & Technology (PMIST) has its origin from Periyar Maniammai College of Technology for Women established during 1988, by Periyar Maniammai Educational and Charitable Society, Chennai-7. Named after the great social reformers of the twentieth century, E.V.Ramasamy, fondly known as Thanthai Periyar and his philanthropic wife Annai Maniammaiar. Earlier (PMCTW) Periyar Maniammai College of Technology for Women has its credit of being the first Women's Engineering College in the world. The primary objective of the institution is to provide increased access to higher education in Science and Technology and encouraging students active participation in social, national and global developments.

Department of Education

Established during 2009 with the objectives of enhancing the professional competencies and skills for serving as teachers in Elementary, Secondary and Senior Secondary Schools. The Department offers B.Ed. Programme and also B.Sc. B.Ed. (4 years Integrated) from 2015. Moreover the Department offers M.Phil. / Ph.D. (FT & PT) programmes.

Department of English

The Department of English established during 1988 is involved in teaching an innovative English language curriculum specially designed for students in various branches of Engineering and Management courses offered by PMIST. The Department offers B.A. / M.A. / M.Phil./ Ph.D. (FT & PT) programmes.

About the Seminar

Language can be used for developing both an individual and a societal sense. It is commonly

used among psychologists and educators with reference to individuals referring to the phenomenon of child language acquisition. Language competence involves several systems. Students need to master a system for understanding the meaning of various things in their own perspective. They must also acquire a facility with the forms of language, ranging from the sound structure of words to the grammatical structure of sentences. Additionally, this knowledge must go hand in hand in developing their social competence. Mastery of these skills, which occurs during the preschool years, will allow the child to function as a successful listener and speaker in many communication contexts. Much of this learning is accomplished without formal instruction, and what is known is largely tacit in nature. Student's achievement is measured in the academic context and it has become a hot topic today, especially with increased accountability for classroom teachers. The ultimate goal for any teacher is to improve the ability level and prepare students to face any situations. In this regard the seminar will provide a platform for the academics and scholars to present their views in connection to the theme.

Sub-themes / Thrust Areas:

- Early Childhood: Language Learning and Development
- Language expressions in children
- Language development and cognitive skill
- Language testing and assessment
- Progress in English language acquisition
- Student perspectives on academic achievement
- Language competence for successful achievement

* Any other thrust areas relevant to Seminar theme

Who can Participate?

Academicians, Research Scholars, Students and NGOs and interested Educationalists in the themes of the Seminar are also welcome.

Accommodation

Accommodation for outstation participants could be arranged at a minimal cost inside the campus with prior request.
