Alumni Lecture: Embracing Global Opportunities: A Journey Beyond Home

The Mechanical Engineering Department at PMIST conducted an inspiring alumni lecture on "Embracing Global Opportunities: A Journey Beyond Home," inviting alumni to share their experiences on international career prospects and the challenges of working abroad. The lecture was attended by 59 enthusiastic Mechanical Engineering students from the final year, eager to gain insights into building successful careers beyond their home country.

The event was coordinated by Dr. C.M. Vivek, AP(SG), Mr. S.P. Manikandan, AP(SS), and guest speaker Mr. Mohamed Riyas, Facility Engineer in the Real Estate Department of Al-Buhaira National Insurance Company, Sharjah. Mr. Riyas, a distinguished alumnus of PMIST, shared his professional journey, discussing the skills required to thrive in a global environment and the adjustments necessary for cultural integration. He highlighted the importance of technical proficiency, adaptability, and resilience, emphasizing how PMIST's training had laid a strong foundation for his international career.

Mr. Riyas encouraged students to pursue global opportunities, advising them on career planning, advanced skill development, and networking. His emphasis on the role of cultural understanding and continuous learning resonated deeply with the attendees, offering them practical tips for succeeding in foreign markets and underscoring the value of PMIST's curriculum in a global setting. The lecture concluded with a memento presented to Mr. Mohamed Riya in appreciation of his valuable insights. The event was a remarkable opportunity for PMIST students to visualize potential career paths on a global scale, helping them envision their future contributions to the field of Mechanical Engineering across borders.

This insightful session left students motivated and well-informed about the possibilities that lie ahead, beyond the boundaries of their own country.
