Report / Summary / Key points discussed:

The Department of Informatics conducted a comprehensive *Life Skills Seminar* aimed at strengthening the personal and professional competencies of students. The session focused on essential skills such as communication, critical thinking, emotional intelligence, and adaptability. The resource person delivered an insightful presentation enriched with practical examples and real-world applications. Students actively participated in the interactive exercises designed to enhance self-awareness and confidence. The seminar emphasized the significance of developing a growth mindset to navigate academic and workplace challenges. Participants gained valuable strategies to improve decision-making and problem-solving abilities. The session also highlighted the importance of teamwork, leadership, and professional etiquette. Overall, the seminar proved to be an enriching experience, empowering students with indispensable life skills for future success. The event concluded with positive feedback and a commitment to organize similar developmental programmes in the future.
