The seminar highlighted the Keeladi excavation as scientific proof of an advanced urban Tamil civilization dating to the 6th century BCE, confirmed through AMS carbon dating and evidenced by planned streets, drainage systems, brick houses, and over 120 Tamil-Brahmi inscribed potsherds. Artifacts including pottery, beads, terracotta figures, metal tools, and ornaments, along with remains of domesticated animals, revealed a thriving society skilled in weaving, trade, and agriculture. Scientific methods and systematic excavation deepened historical insights, underscoring the cultural significance. It concluded that Keeladi marks the “Golden Age” of an independent Tamil civilization, redefining South Indian history.
