Report / Summary / Key points discussed: It is a privilege to have Mr. Vincent V. C., Project Manager at Veloces Pvt. Ltd., deliver this keynote address on the theme of immersive technologies and emerging AI tools. In today’s rapidly evolving digital landscape, technologies such as Augmented Reality (AR) and Virtual Reality (VR) are transforming the way we interact with information, learn, and solve real-world problems. The integration of Artificial Intelligence into AR/VR applications has further enhanced their capabilities, enabling intelligent simulations, personalized user experiences, and real-time decision-making. Mr. Vincent highlights how these immersive technologies are being widely adopted across industries including education, healthcare, gaming, manufacturing, and retail. The session also sheds light on various AI tools that support AR/VR development, making it more accessible and efficient for developers and researchers. Students are encouraged to explore these tools and build innovative applications that address real-world challenges. Furthermore, the keynote underlines the need for continuous learning and adaptability to stay relevant in this fast-growing domain. Mr. Vincent’s insights provide valuable guidance on career opportunities and skill development in immersive technologies. This awareness program serves as a stepping stone for students to delve deeper into the exciting world of AI-powered AR/VR innovations. HSC Students are learned from this event and get awareness of Immersive Technologies Courses and its important.
