Through phone call conversation we got permission to visit Keezhadi spots by the following schedules 19.05.2022, 20.05.2022 & 21.05.2022

Date: 19.05.2022

Place: Keezhadi Excavation Phase-I

The Second phase was visited at 2.00 pm, We have visited the beautifully crafted earthen pot with leaf decoration was unearthed at Archaeological Survey of India's excavation site at Keezhadi.

Date: 19.05.2022

Place: Keezhadi Excavation Phase-II

In the excavations at Keezhadi, 72 potsherds with Tamil-Brahmi script were discovered at the site. Some of these artifacts have inscribed graffiti marks, similar to graffiti marks which some believe to have evolved from the Indus script.

One kind of scripts that survived between the disappearance of Indus script and the emergence of Tamil-Brahmi script is called as graffiti marks by the scholars. These graffiti marks are the one evolved or transformed from Indus script and served as a precursor for the emergence of Brahmi script. Therefore, these graffiti marks cannot be set aside as mere scratches. Like Indus script, these graffiti marks also could not be deciphered till date. The symbols and graffiti are very much suggestive of the symbolic and codified expressions and communication of the megalithic and Iron Age people. In this context, the recovery of 1,001 graffiti sherds from Keeladi excavation recalls the preliminary writing expressions of the Iron Age people. These Tamil-Brahmi scripts can be classified and compared with the ancient Tamil

graffiti sherds from Keeladi excavation recalls the preliminary writing expressions of the Iron Age people. These Tamil-Brahmi scripts can be classified and compared with the ancient Tamil using Graphical Analyzing Tools. This would help us to understand the modernization of a language by antique practices. The students felt that ,there are lots of scopes for Computer Science in the field of languages, image processing and artificial intelligences and to work in many inter-disciplinary branches like Civil Engineering, Structural Engineering, Material Science and Architectures.

The guiding staff are Dr.A.Muthamizh Selvan, Ms.T.Logesh, Ms.R.Kowsalya were very supportive to all students. They took care of each and every one of us very safe.

We are very thankful and very grateful to each and every individual who were supported. We thank the coordinating staff (Dr.A.Muthamizh Selvan, Ms.T.Logesh, Ms.R.Kowsalya), Assistant Professor, HOD/CSA (Dr.D.Ruby) & Dean/FCSE (Dr.J.Jeyachidra), Dean Academic, Registrar and our students who make this happened.

We are sure that this visit will help us in our future and bring a positive change in our thinking and behavior regarding education and specializing our skills.
