Report of the Event:

Objective: To create awareness among our students, on the research planning methodology using critical and creative thinking

Summary:

We planned continuous research publication improvement program for final year biotechnology students. Resource person: Balakumar Pitchai, M.Pharm, Ph.D, Professor & Director, Research Training & Publications-The Office of Research & Development, Periyar Maniammai Institute of Science & Technology (Deemed to be University), and Vallam. This workshop was organized to create awareness among our students, on the research planning methodology using critical and creative thinking and other interest's students also utilized the opportunity. It was highly beneficial to our students.

Outcome: Biotechnology student's (Final year) from PMIST got the exposure about the precise knowledge on critical and creative thinking approach on designing a research and planning to solve a real-time social problem .

Prof. Balakumar Pitchai, M.Pharm, Ph.D, Director, Research Training & Publications gave training to the Students of Department of Bio-Technology

3. Report of the programme.

The lecture introduces cutting-edge tools that are essential for modern geotechnical engineering practice, equipping professionals with the skills needed to address complex geotechnical challenges. The lecture bridges the gap between theoretical geotechnical principles and practical application, demonstrating how software tools can be used to analyse and solve real-world engineering problems. For students and researchers, the lecture provides foundational knowledge and practical skills that can be applied in academic studies and research projects, contributing to advancements in the field.

4. Outcome of the programme

- Participants will have a deeper understanding of geotechnical principles and how they apply to real-world engineering problems.
- Participants will be able to efficiently navigate the PLAXIS 2D interface, set up models, input data, and perform various types of geotechnical analyses.
- Participants will be prepared to integrate PLAXIS 2D and DEEP SOIL into their professional practice, enhancing their workflow and project outcomes.

Name of the Event	Innovative approaches to perform a proficient literature search and review
Organized by:	Department of Computer Science and Applications and in Association with IIC
Date:	30-08-2023
Venue:	Einstein Hall, Periyar Maniammai Institute of Science and Technology
No. of Participants	120

Description of the Event / Activities / Competitions:

The Department of Computer Science and Applications and in Association with IIC organized an Activity on **“Innovative approaches to perform a proficient literature search and review”** on 30-08-2023. This Activity was Inaugurate by Dr.S.Manimozhi and the presidential address is giving by Dr.Balakumar pitchai Professor and Director, Research Training & Publications-The Office of Research & Development, PMIST. **“The theme of the programme is to be gain knowledge about the research ideas and how to do perform a better literature survey and how to write a basic review papers in research area”.**

More research ideas are discussed during this lecture and getting proper guidance for published apapers in verified journals.

One sample published paper also showcased during this lecture and how to write the paper, what arethe content to be mentioned in the papers are briefly explained.

This activity has coordinated by Ms. R.Sivaranjani, Assistant Professor/CSA.

Totally 120 students participated in this activity.

Dr.Balakumar pitchai was giving the detailed explanation about reasearch area.

The chief guest was discussed about how to do a the litreature survey.

BUILDING MATERIALS EXPO 2023

Theme: Knowledge about the construction materials

06.09.2023

1. OBJECTIVE OF THE PROGRAMME

- The objective of a building materials expo typically revolves around bringing together industry professionals, suppliers, manufacturers, and consumers to achieve several key goals:
- Exhibiting new and innovative building materials, technologies, and construction methods that can improve efficiency, sustainability, and functionality in building projects.
- Providing a platform for networking among industry stakeholders, including architects, engineers, contractors, developers, and suppliers, to foster collaboration and partnerships.
- Hosting Expo to educate attendees on the latest trends, regulations, and best practices in the building materials and construction industry.
- Providing insights into current market trends, consumer preferences, and emerging technologies in the building materials sector, helping attendees stay competitive and informed.
- Creating a marketplace where transactions such as procurement deals, partnerships, and sales can occur between exhibitors and potential buyers or investors.

Workshop Highlights

- Hands-on demonstrations of construction techniques, equipment, and technologies to showcase their practical application and benefits.
- Dedicated areas or showcases highlighting cutting-edge technologies.
- Recognizing excellence in product innovation, sustainability, through awards ceremonies and competitions held during the expo.

Description of the Event

Department of civil Engineering organized the building materials Expo 2023 on 6.9.2023. Students display their products and services. Er .R. SIVASANKAR, Chief consultant inaugurate the expo and delivered the special address. He explained the important and method of selection of building materials. These booths range from simple displays to elaborate setups showcasing innovative building materials, construction equipment, tools, and technologies. Exhibitors often use expos to launch new products or highlight advancements in their existing offerings. Many expos feature live demonstrations where exhibitors showcase the practical application and benefits of their products. This hands-on approach allows attendees to see technologies in action and gain a better understanding of their capabilities. Overall, a building materials expo is a vibrant and dynamic event that serves as a hub for industry professionals to learn, network, collaborate, and stay abreast of advancements in the rapidly evolving field of construction and building materials.

7. Outcome of the programme

Totally 20 participants are benefited through Expo. Exhibitors often establish new business relationships, partnerships, and collaborations with other industry professionals, suppliers, and potential customers. These connections can lead to future business opportunities and growth. Overall, the outcomes of a building materials expo contribute to advancing the industry, fostering innovation, expanding market opportunities, and promoting sustainable practices, ultimately benefiting both participants and the broader community. This knowledge can enhance their professional skills and decision-making processes. Expos often highlight new and innovative building materials, technologies, and construction methods. Feedback and interest from attendees can spur further development and refinement of products, driving innovation within the industry.

SEMINAR ON

JACKING, LIFTING and SHIFTING

08.09.2023

1. Objective

The primary objective of the programme is to educate participants on the fundamentals of jacking, lifting, and shifting operations. To enhance awareness of safety protocols and best practices to safely and efficiently relocate or reposition equipment or structures using appropriate jacking, lifting, and shifting techniques which includes ensuring minimal disruption to surrounding operations and maintaining the integrity of the items being moved. To provide insights into real-world applications and challenges in lifting and shifting heavy loads.

4. Report

Seminar on “JACKING, LIFTING AND SHIFTING” “was successfully organized on 8/09/2023 for 140 participants. The guest lecture on Jacking, Lifting, and Shifting was conducted with the objective of providing attendees with a comprehensive understanding of the principles, techniques, and safety considerations involved in these critical operations. This report details the methods, procedures, and outcomes associated with these activities, highlighting safety measures, operational challenges, and achievements. He explained detailed planning involved assessing weight, dimensions, and structural integrity of items to be moved, Site surveys to determine the best locations for lifting and shifting activities and how to secure necessary permits and approvals for the operations.

He also summarized safety measures, execution, monitoring and control. He also explained challenges faced on Technical Complexity, Environmental Factors and Logistical Coordination. He concluded that the Jacking, Lifting, and Shifting has proven effective in achieving its objectives through careful planning, rigorous safety measures, and efficient execution. Continuous improvement in methodologies and equipment utilization remains a priority to enhance future project outcomes.

The guest lecture on Jacking, Lifting, and Shifting successfully met its objectives by imparting valuable knowledge and fostering a deeper understanding of the complexities and safety considerations inherent in these operations. Participants appreciated the clarity of presentation and relevance of topics covered and specific mention of practical examples and case studies that enhanced understand.

6. Outcome of the programme

The outcome of the seminar was improved understanding of the technical aspects and complexities involved in jacking, lifting, and shifting operations and also awareness of safety protocols and their significance in mitigating risks. Also application of theoretical knowledge to practical scenarios discussed during the lecture and Insights into current industry trends and innovations in lifting technology.

Name of the Program	E Poster Competition on the celebration of “World Ozone Day 2023”
Date	19.09.2023 – 26.09.2023
Venue	On Line
Number of Participants	18 students from various department of PMIST participated

The E Poster presentation competition for **World Ozone Day 2023** centered on the theme of "**Ozone Layer Recovery and Climate Change.**" This event aimed to raise awareness about the importance of the ozone layer and its role in mitigating climate change.

Participants showcased their creative and informative posters highlighting various aspects of ozone layer recovery, the progress made, and the ongoing challenges.

Key highlights of the competition included:

Innovative Posters: Participants presented visually appealing and scientifically accurate posters that explained the science behind the ozone layer, its depletion, and recovery efforts.

Educational Insights: Posters provided detailed insights into the impact of ozone-depleting substances (ODS) and the global measures taken to reduce these substances, such as the Montreal Protocol.

Climate Change Connection: Many posters drew connections between ozone layer recovery and broader climate change issues, emphasizing how protecting the ozone layer can also help mitigate global warming.

Sustainability Solutions: Innovative solutions and strategies for sustaining the progress made in ozone layer recovery were discussed, including policy recommendations and technological advancements.

Overall, the E Poster presentation competition for World Ozone Day 2023 successfully highlighted the critical relationship between the ozone layer and climate change, inspiring action and awareness among a diverse audience.

GLIMPSES OF THE E- POSTERS

WORLD OZONE DAY
Heal the Ozone, Heal the World
The ozone layer is our global sunscreen, and we must protect it.

Warmer temperatures increase water evaporation leading to larger and more dangerous storms.

There is great loss of snow cover in spring and summer.

Global warming

Pollution
 The hole in the ozone layer is caused by air pollutants. Chemicals used as refrigerants, such as chlorofluorocarbons (CFCs), contain chlorine atoms. Releasing chlorine atoms into the atmosphere destroys ozone. A single chlorine atom can destroy thousands of ozone molecules.

The ARCTIC is warming twice as fast as south

CFC FREE

MARINE LIFE
 In some areas, there is loss of oxygen in water which is harmful to MARINE LIFE.

Date	18.10.2023	Resource Persons	Dr. Balakumar Pitchai, Ph.D., Professor & Director, Research Training and Publishing, The Office of Research and Development, PMIST.

Objectives of the Programme

- To provide training on principles of protocol writing
- To make the students formulate their research protocol

Activity of the Programme

The Department of Social Work conducted an interactive scientific session on principles of protocol writing at Dawkins Hall, PMIST on 18.10.2023. Dr. A. Anand Jerard Sebastine, Associate Professor, Department of Social Work delivered an introductory address. He said the importance of the research and quality publication. The session was handled by Dr. Balakumar Pitchai, Ph.D., Professor & Director, Research Training and Publishing, The Office of Research and Development, PMIST. He explained the Principles of protocol writing which include research problem, research question, research gap, review of literature, formulation of hypothesis, aims and objectives, materials and methods, protocol design, data analysis, and conclusion. During the training, the Social Work students were presented with their research protocol and clarified their doubts. He also gave suitable suggestions and comments to improve their academic research work. On this occasion, Dr. S. Kumaran Director -Innovation and IPR shared research scholarship details with the participants. In this training, more than 65 students and faculty members participated from the Department of Social Work, Electronics and Communication Engineering, and Department of Biotechnology, PMIST. Finally, Dr.S.Gnanaraj, Assistant Professor, Department of Social Work proposed a vote of thanks to all.

Name of the Event / Activities/Competitions:	Poster Presentation on Research Project in Machine Learning.
Date and Time:	26.10.2023-27.10.2023 and 9.00am to 3.00pm
Venue:	Indoor
No. of Participants	118

Description of the Event:

The Department of Computer Science and Applications organized “**Poster Presentation on Research Project in Machine Learning**” on **26.10.2023 to 27.10.2023** for the students of II MCA A&B. The objective of Poster Presentation is to explore the knowledge of student in different research perspective. Hence, the students were presented different topics under different Domain.

The resource Person, **Dr.P.Balakumar Pitchi**, Professor and Director, Research Training and Publication, The office of Research & Development, Periyar Maniammai Institute of Science and Technology, Vallam, Thanjavur has appreciated and suggested many ideas regarding poster presentation.

Also, **Dr.J.Jeyachidra**, Dean Academic TLE, Professor, Department of Computer Science and Applications, Periyar Maniammai Institute of Science and Technology, Vallam, Thanjavur has participated and recommended to promote the ideas into International Conference.

Students presented the Posters to the Faculty and the Participants

DECODING THE TECHNOLOGY OF GRAND ANICUT**

31.10.2023

1. Objective

The objective of the program "Decoding the Technology of Grand Anicut" was to delve into the historical and technological aspects of the Grand Anicut (Kallanai), a marvel of ancient engineering in India. The program aimed to uncover the sophisticated techniques used in its construction and understand its significance in ancient water management.

Report

Technical lecture on “Decoding the Technology of Grand Anicut” “was successfully organized on 31/10/2023 for 128 undergraduate students and the contents covered were highly beneficial. The welcome address was given by Er.S.Rajendran chairman of Association of Consulting Civil Engineers (India), Thanjavur.

Prof.Dr.R.Paranthaman,Retd.Chief Engineer,P.W.D.,W.R.O.,Madurai was the resource person. He narrated an overview of the Grand Anicut's history, purpose, and construction techniques. The presentation and interaction of the speaker was very effective, wherein he showed many related visuals and discussed on the structural integrity and hydraulic principles employed in the construction of the dam, Analysis of the materials used and their durability over centuries. He enlightened and guided the students to visit to the Grand Anicut site to observe the structure maintenance and preservation challenges. Finally the programme concluded with an discussions involving historians and archaeologists on the socio-economic impact of the Grand Anicut on the Chola dynasty and South India. The students interacted enthusiastically and the resource person answered their queries and cleared their doubts.

The program "Decoding the Technology of Grand Anicut" successfully achieved its objectives by fostering a comprehensive understanding of the Grand Anicut’s technological and

historical significance. It provided a platform for fruitful discussions, research advancements, and cultural exchange among participants. The insights gained are expected to contribute significantly to ongoing efforts in the preservation and appreciation of ancient engineering marvels.

1. Photo of the programme

2. Outcome of the programme

- Enhanced understanding of ancient water management systems and their relevance in contemporary times.
- Promotion of interdisciplinary research and collaboration among students, engineers and archaeologists.
- Identification and preservation strategies for ancient hydraulic structures.
- Dissemination of knowledge through publications, presentations, and workshops to a wider audience.

FDP-RESEARCH PROPOSAL FORMULATION AND FUNDING OPPOURTUNITIES FOR MATHEMATICS

DATE : 30.11.2023

VENUE: SEMINAR HALL- EDUCATION

The poster features a blue and white color scheme. On the left, there is a vertical blue bar with a grid of white dots. Below it is a circular portrait of Dr. S. Appavu. The main text is centered and includes the department name, event title, registration link, venue, date, and time. Logos for PMIST and various accreditation bodies are at the top. An illustration of people presenting a research proposal is also present.

Detailed Report

The Faculty Development Program (FDP) on "Research Proposal Formulation and Funding Opportunities for Mathematics" was designed to support faculty members in enhancing their research skills and knowledge about funding avenues. The program was structured to provide practical insights and hands-on experience in drafting competitive research proposals.

Session Overview

1. Inauguration

- The event commenced with a formal inauguration ceremony. Dr. S. Buvaneswari welcomed the participants and introduced the significance of the FDP in the context of current academic and research needs.

2. Opening Remarks:

- Dr. S. Dilip Jose emphasized the importance of robust research proposals and the role of funding in advancing mathematical research. He highlighted the objectives of the FDP and the expected outcomes for participants.

3. Keynote Address by Dr. Appavu Alias Balamurugan:

- Dr. Balamurugan began with an overview of the research landscape in mathematics, addressing the challenges and opportunities faced by researchers.

- He detailed the essential components of a research proposal, including the problem statement, objectives, methodology, literature review, and budget planning.

- His address included examples of successful proposals and common pitfalls to avoid.

4. Funding Opportunities

- A comprehensive overview of national and international funding agencies was provided, including UGC, DST, CSIR, and private foundations.

- Dr. Balamurugan discussed the specific criteria and expectations of different funding bodies, and strategies for identifying suitable funding opportunities.

5. Proposal Review Process

- Insights into the evaluation process of research proposals were shared, highlighting the importance of clarity, coherence, and feasibility.

- Dr. Balamurugan provided a checklist for self-assessment before submission to ensure the proposal meets all necessary criteria.

6. Q&A Session

- Participants had the opportunity to ask questions and seek advice on their individual research ideas and proposals. Dr. Balamurugan addressed various queries, offering personalized guidance and recommendations.

Conclusion

The FDP on "Research Proposal Formulation and Funding Opportunities for Mathematics" was a resounding success, with participants gaining valuable knowledge and skills to enhance their research capabilities. The interactive nature of the sessions ensured active participation and practical learning. The event concluded with a vote of thanks by the coordinators, expressing gratitude to Dr. Appavu Alias Balamurugan for his invaluable contribution and to all participants for their enthusiastic engagement.

Outcomes of the FDP

The FDP on "Research Proposal Formulation and Funding Opportunities for Mathematics" achieved several significant outcomes, impacting both the participants and the broader academic community:

1. Enhanced Proposal Writing Skill

- Participants acquired a thorough understanding of the essential components of a research proposal.
- They learned practical techniques for drafting clear, coherent, and compelling proposals.
- The hands-on workshop activities provided real-time experience in proposal writing and revision.

2. Increased Awareness of Funding Opportunities

- The session on funding agencies provided participants with comprehensive information about national and international funding bodies.
- Participants are now more knowledgeable about where to seek funding and how to match their research objectives with the priorities of various funding agencies.

3. Improved Research Methodology

- Insights into effective research design and methodology were shared, helping participants strengthen their research plans.
- Participants gained knowledge on articulating the significance and impact of their research.

4. Networking and Collaboration

- The event facilitated networking among faculty members, fostering potential collaborations on interdisciplinary research projects.
- Participants established connections with the resource person, Dr. Balamurugan, for future guidance and support.

The FDP on "Research Proposal Formulation and Funding Opportunities for Mathematics" was highly successful, delivering substantial benefits to the participants and the institution. The skills and knowledge imparted during the program are expected to lead to a positive impact on research activities, proposal success rates, and overall academic excellence within the Department of Mathematics.

Feedback

Participants provided positive feedback, appreciating the depth of information and the practical approach of the FDP. Many expressed their confidence in applying the learned techniques to their future research endeavors.

Day-1, Date: 22.1.2024

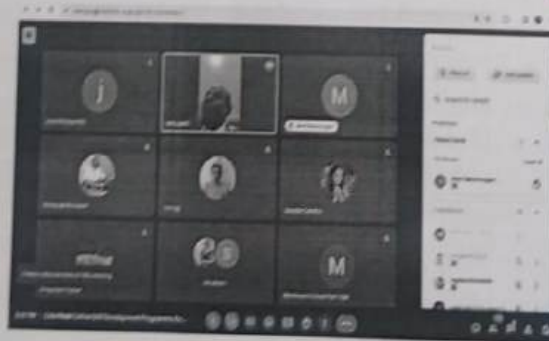

Inaugural Address:

The inaugural address given by,

Dr. S. Velusami, Vice Chancellor,

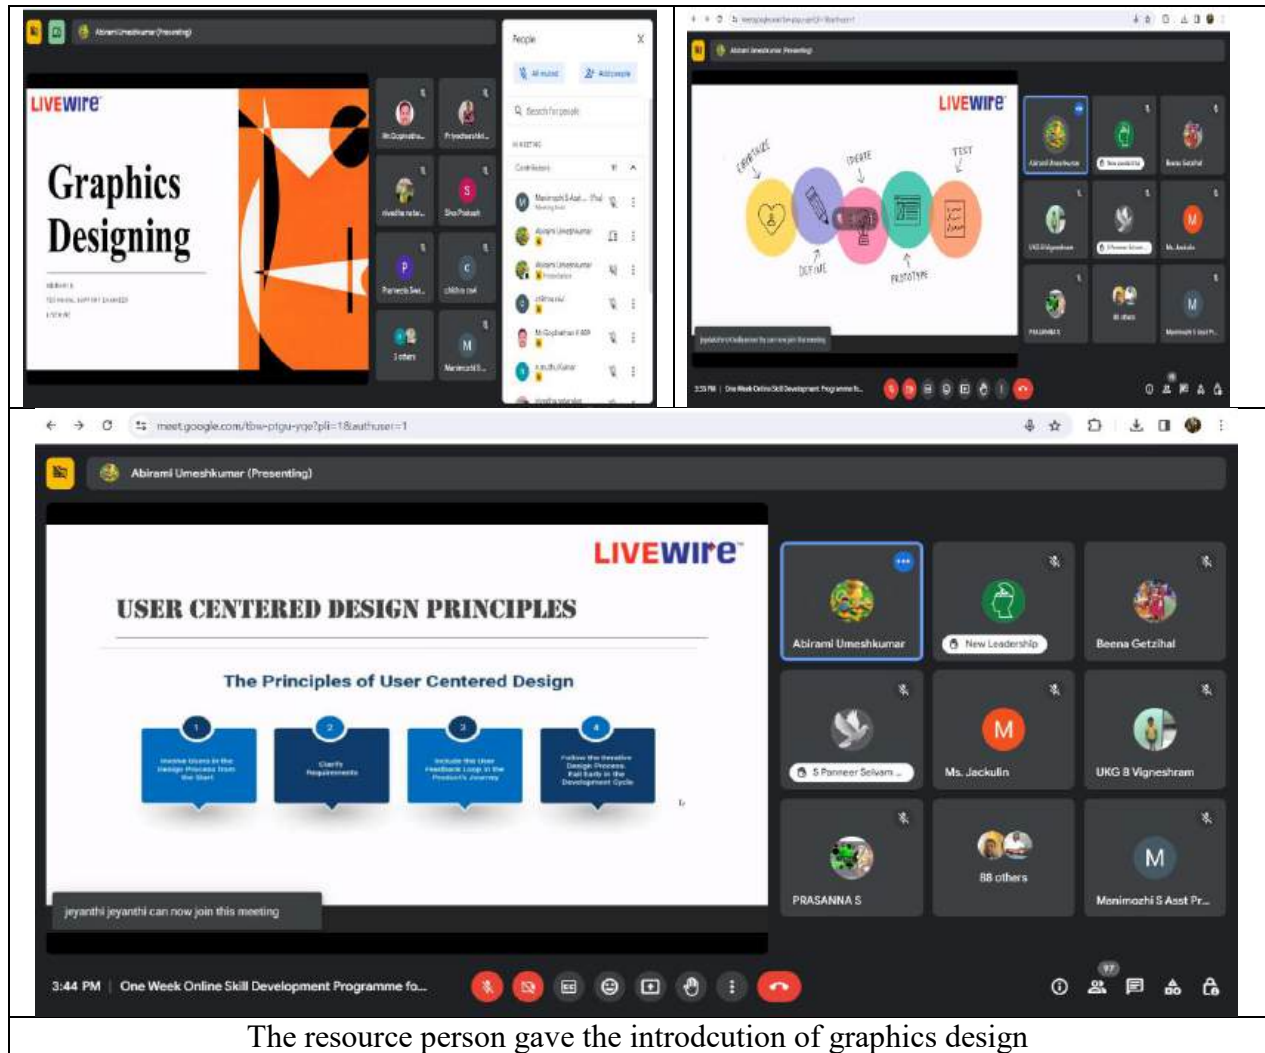

Periyar Maniammai Institute of Science & Technology, Thanjavur,

J Ruby
 Dr. D. RUBY M.C.A., M.Phil., Ph.D
 Associate Professor
 Department of Computer Science and Applications
 Periyar Maniammai Institute of Science and Technol
 Vallam, Thanjavur - 613 403.

Topic Covered- Introduction to Graphics Designing and Design thinking.

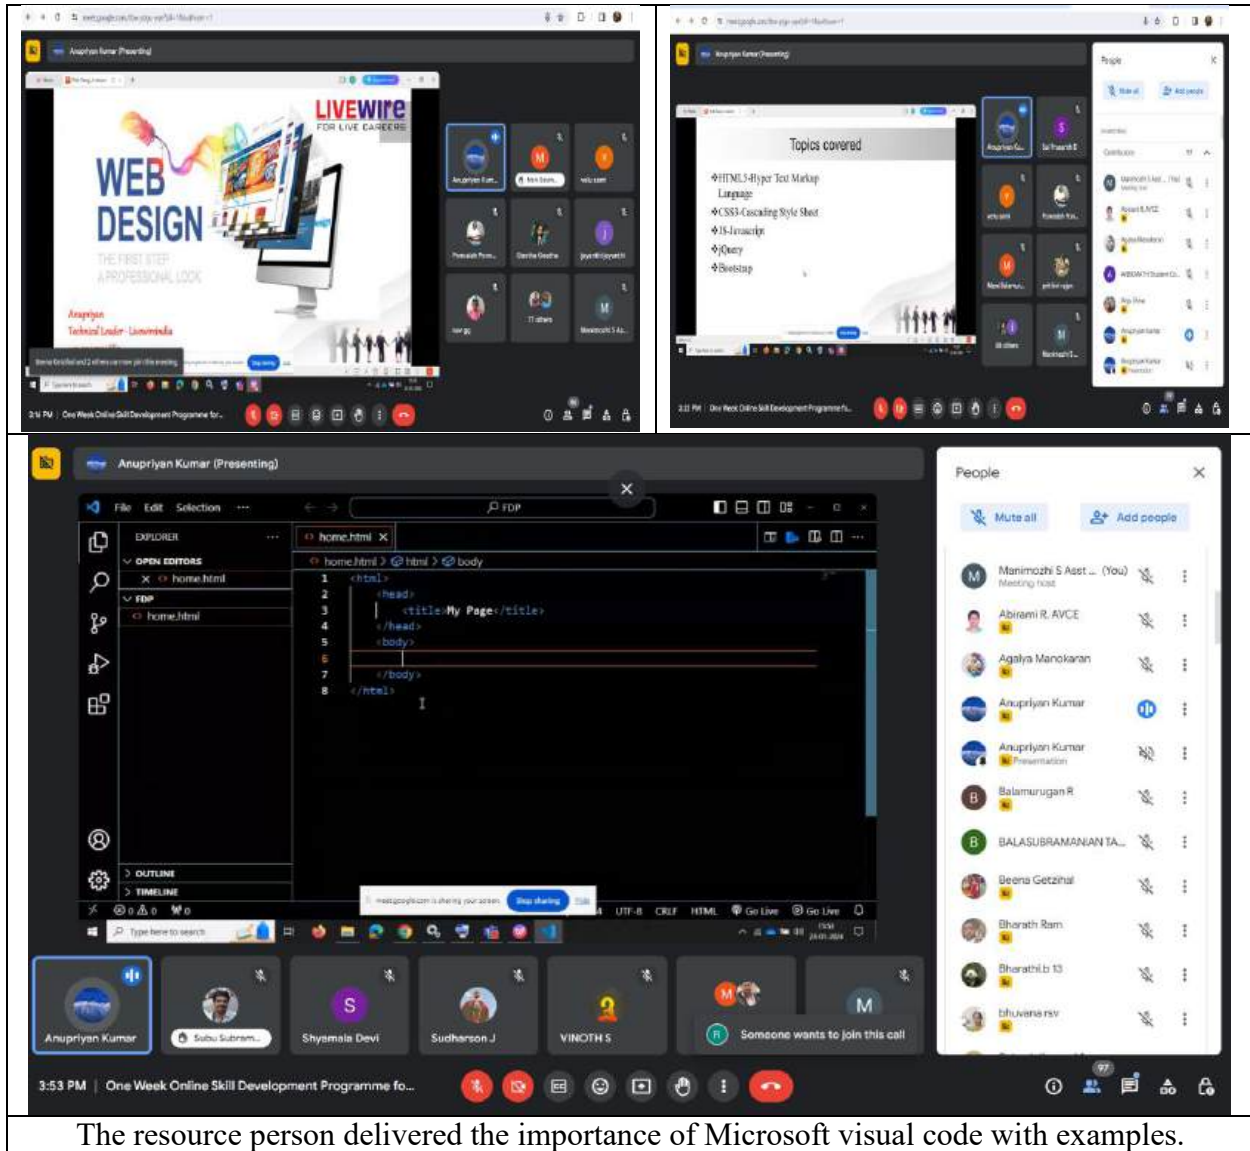

The resource person delivered the topics of graphics design and tools. Also, she covered and explained the thinking skills of graphics design.

Day-2, Date: 23.1.2024

Topic Covered: Web Design

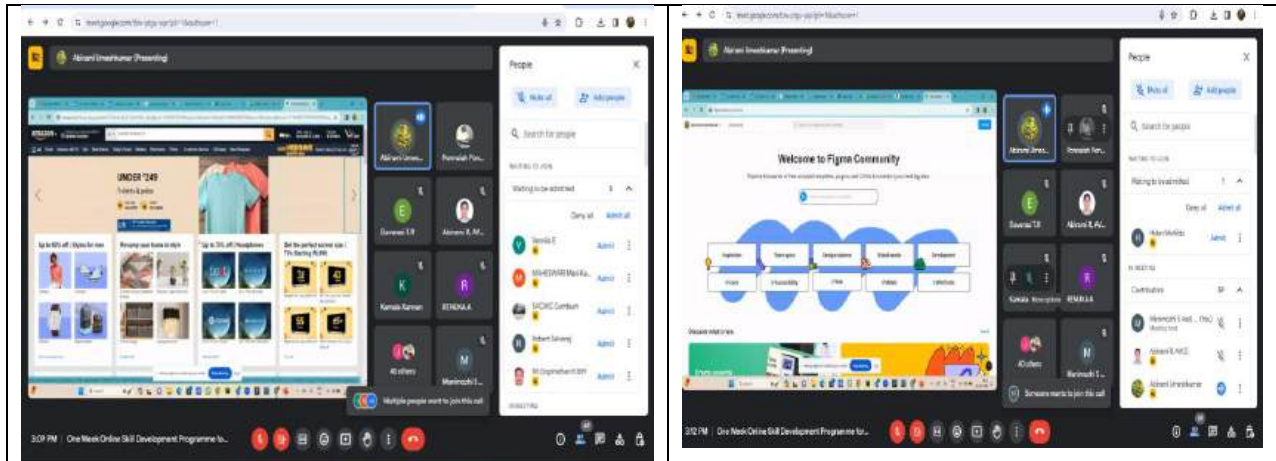

The resource person delivered the importance of web design and various tools used in designing concept. The importance of Microsoft visual code, installation and execution of the web coding are explained in Day-2.

Day-3, Date: 24.1.2024

Topic Covered -

The resource person delivered the uses of Figma software in Day-3. She explained how to create presentation and graphics design using the above. Also, she explained the picture navigation in figma with demo.

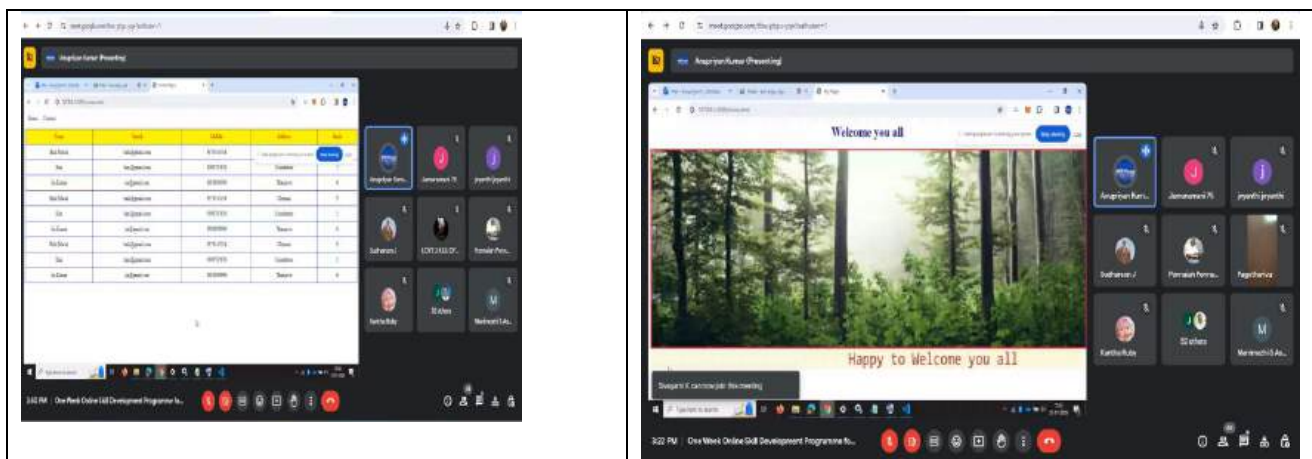

The resource person gave presentation regarding how Figma used in Graphics design during day-3 session

Day-4, Date: 25.1.2024

Topic Covered - Creation of Picture Navigation and table creation

In Day-4, the resource person delivered the topics of various tags such as table creation, break, hyperlink, picture navigation and frame creation in Microsoft visual code.

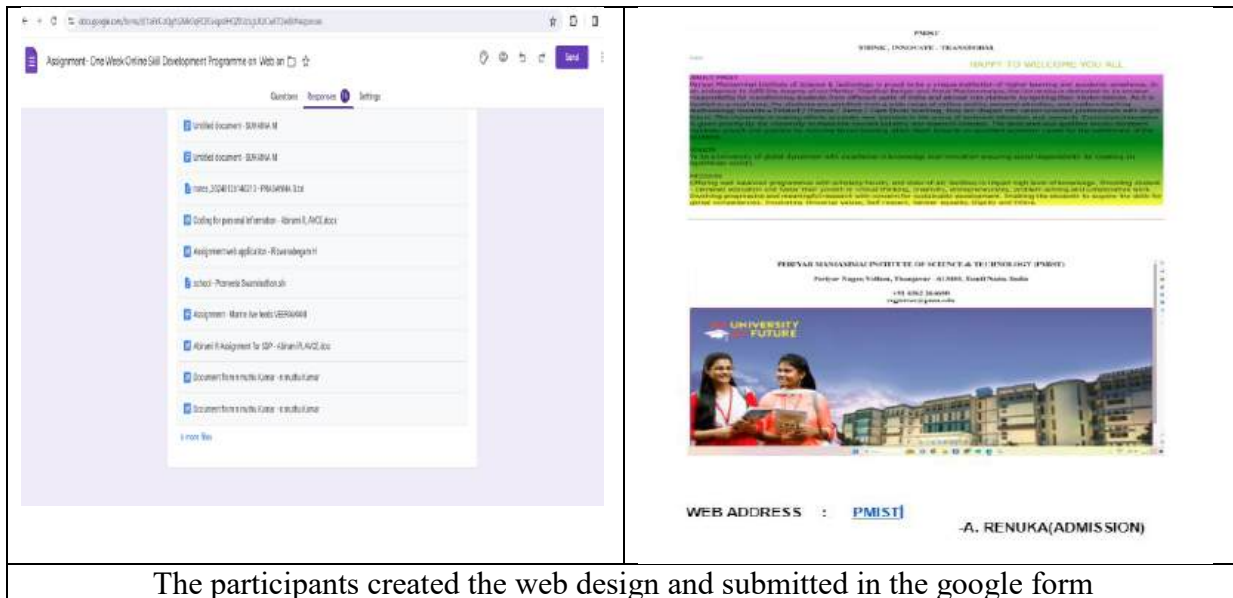

The resource person gave explanation about various tools in Microsoft visual code

Day-5, Date: 26.1.2024

Topics covered-Self Study

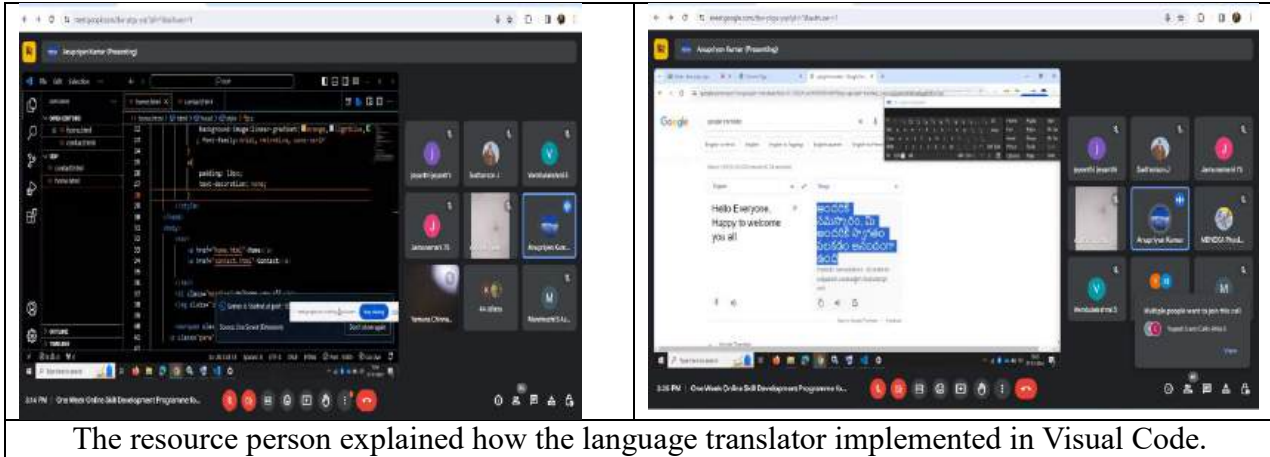

In Day-5, the participants are created a web design and submitted in the google form. The participants are create the concept based on any idea such as picture navigation, table creation and frame creation.

Day-6, Date: 27.1.2024

Topics – Language translation in Microsoft Visual Code

The resource person summarized various advanced tools used in Microsoft Visual Code. Also, he explained about how to translate one language into another language using google translator and the implementation in Visual code. The various compatibility issues are explained in-depth to the participants during Day-6.

Report of the Programme:

The Department of Physics hosted the "Kalam Legacy 2024" symposium on February 1st, 2024, at Valluvar Hall. The event, named after the renowned scientist and former Indian President Dr. APJ Abdul Kalam, aimed to inspire and encourage young minds to pursue careers in science and technology.

Nine colleges and 100 students from Thanjavur district participated in various events, including oral and poster presentations on contemporary advancements in science and technology, a quiz competition, and a connection game. Bon Secours College for Women emerged as the overall champion.

Additionally, a separate physics quiz was conducted for 12th standard students from various schools, with prizes awarded to encourage their interest in the Physics course.

The symposium started with mozhi vazthu , welcome address by Dr. P. Gayathri , HOD/ Physics followed by Inaugural address by Prof. S. Velusamy Hon'ble VC , Felicitation address by Dean Academic (TLE) , Dean FET , featured keynote and Special addresses by distinguished personalities, Dr. P. Mani and Mr. K. Ravichandran, who shared their insights and experiences to motivate the young participants. The programme ended with formal vote of thanks by II M.Sc. Student and National Anthem

Key Takeaways:

- The symposium successfully engaged students in exploring and discussing the latest trends in science and technology.
- The various events provided a platform for students to showcase their knowledge, creativity, and problem-solving skills.
- The inclusion of a separate quiz for school students fostered their interest in physics and encouraged them to pursue science further.

- The inspiring addresses by renowned speakers served as valuable mentorship and guidance for the young minds.

Overall, the "Kalam Legacy 2024" symposium was a resounding success, celebrating the legacy of Dr. APJ Abdul Kalam and igniting a spark of scientific curiosity and passion in the young generation.

Objective of the programme:

The Department of Education & CIII have Jointly Organized One week Capacity Building Workshop On “Strategic Leadership for Student Teachers” for all B.Ed Students 10th-17th February 2024. The workshop has organized with the objectives to instill leadership skills among the placement representatives. To enhance the skills of the leader such as interpersonal, team building, communication, decision making and self-awareness. The workshop began at 2pm and it started with the inaugural address by Dr. K V R. Rajandran professor, who explained the

Er. Shahul Hameed, Founder & Consultant – Mindcube Software Development Company, Thanjavur conducted a workshop on Workshop Data Analytics and Business Intelligence

importance of Leadership and all the requirements for the same. Overall it’s an amazing experience to be a part of this workshop wherein each one of us got a lot to learn in the most effective way. They conducted various activities starting from listening skills, Interaction activity, Hand Knot, Team building activity, Brick game, Passing the ball and much more. Each and every activity conducted had at most significance which thoroughly registered in the minds of the students.

Through these activities they taught that:

- Listening skill is the most important skill that one should have.
- It's not about how big the problem is, it's all about how patiently / calmly you find the solution. All that it takes is the Courage to try to solve the problem.
- Life is a rhythm wherein we have to get set with the tune of the system that is in and around us. It's always better to Go with The Flow.
- Team efforts, individual efforts everything is equally important for a healthy development. Active participation is appreciation.
- Coordination and mutual understanding is very important.
- Leadership is vital.
- Responsibilities are to be taken seriously and its importance was enhanced.

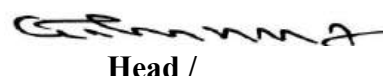

Last day of the workshop valedictory session Dr. Rajandran, Professor, Department of Management studies was the chief guest, Dr. G. Thamilvanan Head, Department of Education & Convener of the workshop gave the detailed report of one week deliberations. Participants were asked to their comments and suggestions about the workshop and they happily shared one week experiences. Most of the respondents suggested that workshop on leadership could be arranged around the themes that can be more insightful and meaningful for future workshops. At the end vote of thanks was given by Dr. S. Anand Gnana Selvam.
