Programme No.	11	Topic of the programme	Women Disparity
Date	03.04.2024	Resource Person	Dr. R. Balakumar, AP, Department of Mathematics, PMIST

Objective of the programme: To create awareness about “Women Disparity”.

Venue: LH-512, PKC Extn. Block,

Participants: 52 (Girls - 19 & Boys – 33) students from 1st year, BSC (CS) (SII), A sec, PMIST

Report of the programme:

Dr. R. Balakumar, AP, Department of Mathematics, PMIST, gave a lecture on “Women Disparity”. 52 students from 1st year, BSC (CS) (SII), A sec of PMIST attended the programme.

Addressing about Women Disparity in a Gender Sensitization Program for first-year B.Sc Computer Science students is crucial for fostering an inclusive academic environment. Historically, women have faced significant challenges in accessing education and professional opportunities, particularly in STEM fields. These disparities are often rooted in societal biases and stereotypes that discourage women from pursuing careers in technology. By understanding these challenges, students can become advocates for gender equality, promoting diverse perspectives that enhance innovation and problem-solving. Encouraging open discussions about gender bias, providing mentorship, and creating supportive networks are essential steps toward bridging the gender gap. This program aims to empower students to challenge discrimination, support their peers, and contribute to a more equitable future. The students interacted with the resource person and get clarified many doubts.

Finally the student Ms. C. GOPIKA thanked the organizers and the students.
