Faculty Development Programme on Outcome Based Education

(23.08.2023 to 29.08.2023)

The department of Commerce has organized Faculty Development Programme on "Outcome Based Education" from 23.08.2023 to 29.08.2023. The commerce department faculties have attended the programme. The resource persons are Dr.N.Jayanthi, Head, Commerce department, Dr.D.Umamameshwari, Professor and Dr.S.Prabhu, Asst. Professor, Department of Commerce.

On first day, first session of the programme, Dr.N.Jayanthi has delivered lecture on Fundamentals of OBE. She explained before understanding the concept of OBE, we must understand why there's a need for an **outcome based education system**. What are the factors that have made OBE, the most **"sensible"** way of learning in the current situation?. The differences between traditional educational system and OBE system were explained. Second session has been taken by Dr.D.Ummaheswari. She has narrated importance of revised Bloom's taxonomy. She added that Bloom's Taxonomy can help educators map learning within a single lesson or even a whole course. Using the taxonomy as a guide, trainers can identify clear instructional goals corresponding to each taxonomy level and create plans to achieve them. By setting achievable objectives for learners, instructors make them more active and responsible for their education. The new learning stages are **Remember**, **Understand**, **Apply**, **Analyze**, **Evaluate** and **Create.**

The second day of first session was taken by Dr.N.Jayanthi and explained how to frame Course outcomes. She explained that Course Outcomes are the statements that help the learners to understand the reason for pursuing the course and helps to identify what he will be able to do at the end of the course. A Course outcome should define the knowledge, skills, the application of the knowledge and the skills the learner has acquired which he is able to demonstrate as the result of pursuing the course. The second session was handled by Dr.D.Ummaheswari. She has delivered preparation of Course plan. She has explained with sultable examples.

Dr.S.Prabhu has explained course process documentation on third day. He has explained how to conduct course committee meeting and follow up action. Dr.Jayanthi delivered lecture on CO PO mapping and how to attain COs and POs.

On fourth day Dr.N.Jayanthi has delivered lecture on How to setting Question paper and how the questions aligned with course outcomes and bloom's taxonomy. Dr.S.Prabhu has explained Programme Articulation Mapping.

Dr.S.Prabhu has explained to Measure Course Outcome Attainments. He has given practical exposure. Dr.D.Umamaheswari has given talk on Basics of Continuous Quality Improvement. She added that essentials of CQI, how to implement CQI and strategies to attain CQI.

On Sixth day, D.N.Jayanthi has given hands on training on framing course outcomes and setting question papers. Dr.D.Umamaheswari has delivered lecture on Measuring Continuous Quality Improvement. Totally 27 faculty members from the department of commerce, languages and mathematics were attended and benefited.

Faculty Development Programme on Outcome Based Education

Dr.N.Jayanthi delivered a session in the Faculty Development Programme on Outcome Based Education (23.08.2023, 02.00 pm to 05.00 pm)

Dr.D. Umamaheswari delivered on course outcomes and instructional objectives on 24.08.2023

Dr. N. Jayanthi delivered a lecture on "Setting Question Papers and Aligning Questions with Course Outcomes and Bloom's Taxonomy" on 27th August 2023 from 2:00 pm to 5:00 pm

Dr. S.Prabhu elaborated on the articulation mapping, emphasizing its importance in achieving programme objectives on 28.08.2023.

Outcomes of the Faculty Development Programme on Outcome-Based Education (OBE):

The Faculty Development Programme (FDP) on Outcome-Based Education (OBE) provided participants with in-depth knowledge and hands-on experience in designing and implementing OBE frameworks. By the end of the programme, the participants achieved the following outcomes:

- Participants gained a clear understanding of the importance and relevance of OBE in modern education.
- The comparative analysis of traditional education versus OBE helped participants appreciate the benefits of aligning education with learner outcomes and societal needs.
- Practical exercises enabled participants to draft COs that are specific, measurable, achievable, relevant, and time-bound (SMART).
- Faculty members were equipped to design comprehensive course plans aligned with the framed COs.

- They learned to integrate learning objectives, teaching methodologies, and assessment strategies into a cohesive plan.
- Suitable examples and templates provided during the sessions empowered participants to prepare effective course plans for their respective subjects.
- Participants gained a thorough understanding of Bloom's Taxonomy and its revised version, which includes the six stages of learning: Remember, Understand, Apply, Analyze, Evaluate, and Create.
- Participants acquired the skills to design question papers that are aligned with course outcomes and Bloom's Taxonomy.
- Practical sessions on setting questions ensured that participants could apply theoretical knowledge to create assessments that accurately evaluate learning outcomes.
- Faculty members were introduced to the concept of CQI and its significance in maintaining and enhancing educational quality.
- The programme enabled participants to map Course Outcomes (COs) to Programme Outcomes (POs) effectively.
- Practical sessions provided exposure to tools and techniques for assessing outcome attainment and aligning these with programme goals.

The FDP empowered participants to transition from traditional teaching methods to an outcome-based approach, fostering a learner-centric educational environment. By equipping faculty members with the tools and strategies for OBE implementation, the programme ensured a holistic enhancement of teaching, assessment, and curriculum design practices. These outcomes will contribute significantly to improving the overall quality of education and aligning it with global standards.

Description of the Event

The Department of Computer Science and Applications had organized one week faculty development programme Artificial Intelligence and Cyber Security from 24.11.2023 to 30.11.2023. The FDP were inaugurated by the Dr.S.Velusami, Vice Chancellor, Periyar Maniammi Institute of Science & Technology, Thanjavur, India.

The main theme of this FDP had help to disseminate the knowledge in the domain of Machine Learning, Artificial Intelligence and Cloud Computing Techniques. Since data is over whelming, organizations are struggling to extract the meaningful insights, which might help to make smarter research decisions. The participants have trained with hands-on approach in order to have an in-depth domain of knowledge of artificial intelligence and cyber security to expose feasibility & future scope.

Topic covered

- Fundamentals of Machine Learning and Artificial Intelligence
- Machine Learning with Hands on Sessions.
- Linear and Polynomial Regression and Applications.
- Text Analytics using Machine Learning Algorithms
- Applications and Machine Learning Impacts.
- Insights and Implementations of Machine Learning.
- Biometric Privacy Security
- Multi-Objective Optimization Methods and its uses.

Outcome of the programme

A total of 421 participants have participated in the event globally such as Uttar Pradesh – 04; Andhra Pradesh - 10; Chennai – 04; Haryana – 02; puducherry – 06; Punjab – 02, Rajasthan – 03; Telangana - 05; Uttar Pradesh – 01; Tamil Nadu – 384 from various Colleges,universities and Industrial Persons.

At the end of the program, around 87% participants from an Academic as designated such a Professor - 12; Associate Professor - 08; Assistant Professor - 298; Academician – 47 and remain 13% of Research Scholar – 52have participated in this event. The certificates had been issued to the 312 participants are having all day session attendance. The overall event was successful and admired in the university. It stood to be beneficial to memorize & update the computer science and applications faculty development programme.

ABOUT PMIST

Periyar Maniammai Institute of Science & Technology (PMIST) has its origin from Periyar Maniammai College of Technology for Women established in 1988, named after the great social reformers of the 20th century, E.V Ramasamy, fondly known as Thanthai Periyar and his philanthropic wife Annai Maniyammaiyar.

ABOUT THE DEPARTMENT OF CSA

The Department of Computer Science and Applications, Periyar Maniammai Institute of Science & Technology as already a part of the erstwhile college grew in full strength with 27 well qualified teaching staff at present. The faculties of the department have rich experience in the academic and research. The department is offering B.Sc (Data Science)., B.C.A., M.C.A., M.Sc (Data Science) and Ph.D programmes. The department regularly organizes workshops, seminars and conferences to enlighten the academic community.

ABOUT THE FDP

The purpose of this programme is to bring together the experts, faculties and young researchers to provide platform for training on recent advances and developments in modern era. The objectives of the programme are to provide a deep knowledge about cyber security & AI.

Agenda:

1. The programme was useful to Researchers and working staff members.
2. The faculty development programme have been satisfied the previous requirement of latest technologies awareness to the faculties.
3. Delivered lecture were excellent from the professors.
4. The organized program was good to all level of profession.
5. Expecting more time for hands on session.

Action Taken:

1. The latest technologies of Virtual Reality, Artificial Intelligence, Machine Learning, Sentimental Analysis and Robotics will beconsidered in next FDP.
2. Automation using Python, Full Stack Development, DevOps, Edge Computing, and Augmented Realitysoftware's to be included in the future FDP.

Six days Faculty Development Programme on "Characterization Techniques"

Objective of the Programme:

To enhance faculty members' knowledge and understanding of advanced characterization techniques used in various fields. To develop skills in using and interpreting data from these techniques for research and teaching purposes. To facilitate interaction and collaboration among faculty members from different disciplines.

Resource Persons and Session Details:

- Day 1: Dr. K. Srinivasan - Mass Spectrometry
- Day 2: Dr. R. Balaji - UV-Vis NIR Spectroscopy
- Day 3: Dr. K. Ravichandran - Optical and Compositional analysis
- Day 4: Dr. Logu Thirumalaisamy - Surface Morphological Studies
- Day 5: Dr. S. Gopinath - X-Ray Diffraction Technique
- Day 6: Dr. S. Prabhu - Instrumental Interpretation of Supramolecules

No. of Beneficiaries: 17
Coordinator: Dr. R. Anandhi AP/ Physics

Invitation for the Program

Report of the Programme:

This six-day Faculty Development Programme (FDP) aimed to equip participants with advanced knowledge and practical skills in various characterization techniques used in scientific research. The program covered a diverse range of techniques, including Mass Spectrometry, UV-Vis NIR Spectroscopy, Optical and Compositional analysis, Surface Morphological Studies, X-Ray Diffraction Technique, and Instrumental Interpretation of Supramolecules.

Overall, the Faculty Development Programme on “Characterization Techniques” was a valuable learning experience for participating faculty members. The program provided them with the necessary knowledge, skills, and confidence to effectively utilize these techniques in their research and teaching endeavors.

About PMIST

Periyar Maniammai Institute of Science & Technology (PMIST) originated from Periyar Maniammai College of Technology for Women established in 1988, named after the great social reformers of the 20th century, E.V. Ramasamy, fondly known as the Thanthai Periyar and his philanthropic wife Annai Maniammaiyar.

About the Department of CSA

The Department of Computer Science and Applications (CSA) as a part of the PMIST grew in full strength with 25 well qualified teaching staff at present. The department have the rich experience and facilities for the teaching, learning and innovative research. CSA department is offering the B.Sc Data Science, BCA, M.Sc Data Science, MCA and Ph.D Programmes. It is regularly organizing the workshops, seminars and conferences to enlighten the academic community.

About SDP

The purpose of this Skill Development Programme (SDP) is to enrich the knowledge for graphics design creativity, multimedia and web technologies.

Registration

- Free online registration.
- Conducted through google meet.
- Attendance is mandatory for all the sessions.
- E-certificate will be issued at the end of programme for regular attendees.

Report of the Event

- 2 day Faculty Skill Enhancement Workshop on **Autodesk Fusion 360 – CAD Fundamentals** held on 08.08.2024 and 09.08.2024 at 09.30 am to 03.30 pm @ Smart Class room. Technology Block-II.
- Mr. R.Thiyagarajan, AP/ Mech. has done the welcome address, he welcomed the resource person Mr.J.Yasar Arafath, Application Engineer, USAM Technology Solution PVT, Ltd., Chennai. and other Staff ,Students.
- Mr.Yasar Arafath narrated about the Autodesk Fusion 360 Software and its importance's and also explained about staff registration for free 1 year License.
- Chief Guest started session on how to use the features in Autodesk Fusion 360 Software and also given examples.
- In these following sessions he completed the various exercises in software like Fusion Sketching, Basic Modeling, and Solid Part Modeling in Day 1.
- In Day 2 session has started with the exercises like Part Modification, Creating Construction Geometries, Basics of Generative design and Assembly.
- The staffs were also given hands on training on Modeling in CAD lab at Mechanical Engineering Department.
- About 12 staff got benefitted out of this Workshop from Aerospace and Mechanical engineering department.
- The sessions for the 2 days found useful and he has given lots of insights about Software.
- The Vote of thanks given by Mr.A.Pugazhenthi, AP(SS), HOD/MECH.

One Week Online Short-Term Training Programme on Python, R and Latex

Organized by Department of Mathematics in association with Centre for Human Resource Development

Objective

This training course on Python, R, and Latex aims to demonstrate how these three programming languages are quickly emerging as essential tools for academics, learners, and research scholars because of their design, extensibility, and accessibility to open source libraries for scientific computing and data visualization.
