Annexure – IV

ENVIRONMENTAL AUDIT REPORT

- The fresh water consumption has gone up by about 10,000 lit. The reason for it is to be found out for taking remedial action to reduce the consumption.
 - Flow meter has to be incorporated for monitoring and controlling the consumption.
- The water from the 5 working bore wells were found to be within allowable limits for potability.
- A total of about 7100 kg solid waste has been collected.
 - Out of the above 1000 kg answer books has been recycled in Paper Recycling Unit.
 - About 5100kg of kitchen waste has been used in biomethanation plant for power generation. The gas flow meter reading should be recorded for accurately calculating the gas / power generation.
 - The balance waste along with the non-recyclable waste collected from the campus (About 5000kg) has been sent to Vallam Town Panchayat dumping yard.
- General noise levels around the campus is within the limit (less the 70 db). However the wind tunnel lab has to be sound attenuated.
